

PLANNING STAGE

- ☐ Visit nobleremc.com and review our Electric Standards Manual, under the Member Services tab.
- ☐ Acquire site plan/drawings and/or plot plan from survey, detailing property lines, driveway, and septic field. Include dimensions of the house to the right-of-way.
- ☐ Acquire a building permit from your respective county. (Kosciusko County does not require a building permit.)
- ☐ Pin/stake the house location. Complete soil samples for septic field.

SITE MEETING

- ☐ Call Noble REMC to request an appointment for an onsite meeting. *This call can be made by a homeowner, electrician, or builder.*
- ☐ Bring site plans and details on home heating/cooling, water heater, and other home appliances.
- ☐ Discuss topics, including: path of service, right-of-way clearing, type of service (meter base size), location of meter base, underground or overhead service, location of transformer (if applicable).
- ☐ Receive cost estimate from Noble REMC after the meeting.
- ☐ Set up an account with Noble REMC.

TEMPORARY SERVICE (IF APPLICABLE)

- ☐ Electrician or homeowner required to pull electric permit for county inspection.
- ☐ Install temporary electric service. *This can be done by homeowner or electrician.*
- ☐ Call building department to complete inspection.
- ☐ Call Noble REMC after inspection is approved.

PERMANENT SERVICE

- ☐ Install permanent electric service. *This can be done by homeowner or electrician.*
- ☐ Call building department to complete inspection.
- ☐ Call Noble REMC after inspection is approved.

FINAL INSPECTION

- ☐ Noble REMC will perform site visit and verify conditions are ready for installation.
- ☐ Noble REMC will flag proposed wiring location to electrical equipment.
- ☐ Sign Noble REMC trenching agreement.
- ☐ Noble REMC will install permanent service.
